Figure 1 is a line graph showing the temperature of the water column (°C) versus Day. The y-axis represents temperature in degrees Celsius, ranging from 15 to 30. The x-axis represents the day, with labels for Aug 22, Aug 27, and Sep 01. The temperature is relatively stable, ranging from approximately 12°C to 14°C, with a slight increase towards the end of the period (Sep 01).
